

Date: October 7, 2010
To: Stuart Henderson, Greg Bock, Vicky White, Bruce Chrisman
From: Pier Oddone
Subject: Delegation of Authority

A handwritten signature in black ink, appearing to read "Pier Oddone", is written over the "From:" and "Subject:" lines. The signature is written in a cursive style and is underlined with a single horizontal line.

I hereby delegate the Authority to approve Director's ES&H Exceptions to the appropriate Associate Laboratory Director. The determination of which ALD is to review and approve an exception is to be made considering which organization is to perform the work and to which ALD that organization reports. In cases where that determination is not clear, the Lab Senior Safety Officer will make the final decision and this decision may be that I am the appropriate person to approve the exception.
