

Whole Body Counting at Argonne National Laboratory

If the Senior Radiation Safety Officer deems it necessary, whole body counting arrangements may be made with Argonne National Laboratory. To arrange for a whole body count, call Theresa Davis at the number below or ask Argonne Security (Extension 252-5732/2000) to contact her at home. Ask Theresa Davis to make the arrangements for a gate pass to allow the exposed individual and his/her Fermilab escort access to the Argonne site. The Emergency Coordinator should arrange for transportation to Argonne. Complete the Argonne Information Sheet and send it with the exposed individual.

Whole Body Counting Contacts - Argonne

Theresa Davis (630) 252- 6077 tmdavis@anl.gov

During off-hours, call Argonne Security at (630) 252-5732/2000.

Argonne National Laboratory Information Sheet

The following individual may have been internally contaminated:

Name: _____

Fermilab ID #: _____

Date of Exposure: _____

Time of exposure: _____

Additional Comments (i.e., area of body exposed and contamination levels).

Please call the results to:

Dosimetry Program Manager: (630) 840-8386
ES&H Section Radiation Physics Team

Directions to Argonne National Laboratory

Take Rt. 59 south to 75th street.

Take 75th east to Cass Avenue.

Enter Argonne by the Visitor's Center off of Cass Avenue. Appropriate security arrangements should already have been made. Ask for directions to Building 203, Whole Body Counting Facility.
