Dr. Nigel S. Lockyer, Director
Fermilab
P.O. Box 500
Batavia, IL 60510

Dear Dr. Lockyer:

SUBJECT: FERMILAB INTEGRATED QUALITY ASSURANCE PROGRAM DESCRIPTION

References: Memorandum, from M. Michels to M. Weis, dated October 4, 2013, Subject:
Same As Above

The Department of Energy (DOE) Fermi Site Office (FSO) has reviewed and is approving the attached Fermilab Integrated Quality Assurance Program (IQA) description, dated September 2013. DOE understands this revision reflects the transition of ownership from the previous Office of Quality and Best Practices (OQBP) to the Environment, Safety, Health, and Quality (ESH&Q) Section.

FSO reviewed a preliminary version of the IQA and submitted comments to the Laboratory, which were incorporated in the attached revision. FSO finds that the changes in the IQA do not decrease the effectiveness of the quality assurance program and the IQA, as changed continues to meet the requirements of the DOE Order 414.1D, *Quality Assurance*.

FSO will monitor Fermilab's progress against the revised program description through regular oversight activities and during our regularly scheduled quarterly contractor assurance, IQA, and software QA implementation briefings.

Please contact Ms. Berline Short, of my staff, at (630) 840-4197, if you need further assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Weis".

Michael J. Weis
Site Manager
