**Subject:** Revised FESHM Chapter 1080 – Environment, Safety and Health (ES&H) Requirements for Experimenters

FESHM Chapter 1080 – Environment, Safety and Health (ES&H) Requirements for Experimenters has been updated to include the new format; editorial changes, and clarification of the role of each D/S/C with regard to completing a User's ITNA. Also, the flow chart at the end was removed as it did not add anything to the context of the chapter.

This chapter went out for Lab-wide review and all comments were addressed. After Directorate approval, please return this approval page to Jody Federwitz at MS119 for posting on the web.
