Dr. Bruce Chrisman
Chief Operations Officer
Fermilab
P.O.Box 500
Batavia, IL 60510

Dear Dr. Chrisman,

SUBJECT: UPDATE OF THE FERMILAB WORK SMART STANDARDS (WSS) – FESHM
2010

Reference: Letter, B. Chrisman to M. Bollinger dated July 21, 2010, "Update of Fermilab Work
Smart Standards – FESHM 2010

FSO has reviewed the subject update to the WSS set that includes the revision of FESHM 2010, "Planning and Review of Accelerator Facilities and their Operations", and recognizes the importance of this FESHM Chapter as it implements the requirements of DOE Order 420.2B, "Safety of Accelerator Facilities". FSO staff actively participated in the revisions to FESHM 2010 which also address concerns identified during the March 2009 Department of Energy Office of Science review of Fermilab's Accelerator operations. Enclosed is a copy of our concurrence with your proposed update to the WSS set.

If you have any questions, please contact Dennis Parzyck of my staff at extension 2449.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Bollinger".

Mr. Mark E. Bollinger
Acting Manager
Fermi Site Office
U.S. Department of Energy
P.O. Box 2000
Batavia, Illinois 60510-0511

Dear Mr. Bollinger:

SUBJECT: Update of the Fermilab Work Smart Set of Standards – FESHM 2010

As part of our ongoing efforts in continuous improvement, we enclose a revised Fermilab ES&H Manual (FESHM) Chapter 2010, "Planning and Review of Accelerator Facilities and Their Operations" to incorporate more clear direction in the topic of assessing risks and to reflect the establishment of the new Safety Assessment Document Review Subcommittee of the Fermilab ES&H Committee (FESHCom). This particular WSS constitutes the implementation document for DOE Order 420.2B, "Safety of Accelerator Facilities". We would appreciate your concurrence with this revision as a WSS. Further questions on this topic should be addressed to Dr. J. Donald Cossairt (x3465).

Sincerely,

Bruce L. Chrisman
Chief Operating Officer
