Re: FESHM 10160 – Traffic Safety
FRCM Chapter 3 – Conduct of Radiological Work

These chapters were updated by Subject Matter Experts to align the requirements with recent changes in applicable regulations.

FESHM 10160 and FRCM 3 had very minor updates. Changes are summarized below.

FESHM 10160 –

- Updated Excessive Speed definition to state 15 mph over the posted limit

FRCM 3 –

- Updated Article 337 to reflect current Controlled Access rules, general procedure, and critical steps. Removed the role of “Entry leader”.
- Updated Article 352 to indicate that RSOs may collectively act as the ALARA coordinator in a centralized ESH&Q organizational structure.
- Revise Article 347 to include correct 10 CFR 835 DAC values.
- Minor editorial changes throughout.

These chapters do not need to go to the Directorate for review and approval.
