

Memorandum

December 26, 2016

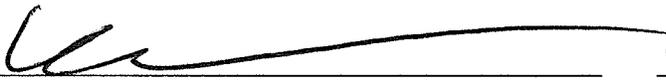

To: Timothy I. Meyer, COO
From: Martha Michels *mm*
Subject: FESHM 7080: Concrete Anchor Devices

This is the initial release of FESHM 7080. This chapter outlines the requirements for the specification, installation, inspection, and testing of post-installed concrete anchors where a failure of an anchor presents a hazard to people or equipment or would be a reportable incident.

This chapter went out for lab-wide review and all comments were addressed. After Directorate approval, please return this approval page to Jody Federwitz at MS119 for posting on the web.
