Memorandum

August 3, 2015

To: File

From: Martha Michels *MM*

Subject: Updated FESHM Chapter 2010 – Planning and Review of Accelerator Facilities and Their Operation

FESHM Chapter 2010 – Planning and Review has been updated as follows by the Subject Matter Expert:

1. Editorial changes made to this chapter and associated forms in view of the Laboratory reorganization of ESH&Q effective July 1, 2015.
2. Corrected reference to the companion DOE Guidance document to DOE O420.2C to reflect the current DOE G 420.2-1A. This guidance document replaces one that was in effect at the time of the previous revision of this chapter. This is also an editorial change.

It did not go out for lab-wide review and does not require Directorate approval.
