 SUBJECT: New FESHM Chapter 5032.1 – Liquid Nitrogen Dewar Installation and Operation Rules

FESHM Chapter 5032.1, " Liquid Nitrogen Dewar Installation and Operation Rules" has been revised to require the identification of a responsible party for each dewar. Responsibilities of a Responsible Party have been assigned. The chapter also required the development of a database of nitrogen dewars.

After final approval, please return this approval page to Liz May at MS119 for posting on the web.
