From: Martha Michels 

Subject: Updated FESHM Chapters 5032.3 – Transporting Gases in Building Elevators

This FESHM Chapter was updated by the Subject Matter Experts in 2013, however the chapter was not submitted for upload. These changes were minor in nature and did not change the meaning of the chapter in any way.

Changes include:

1. Remove “fully empty” condition from definition
2. Include “all dewars” in scope
3. Remove list of dewar types
4. Added “personnel not permitted to ride in elevator with dewars”
5. Restricted number of dewars in elevator to two at a time
6. Included requirements for properly parking the cart where dewar is seated
7. Added a statement related to no stopping at intermediate floors

This chapter did not go out for lab-wide review and does not require Directorate approval. The next required review will occur in 2018, unless it undergoes a reviewed in the interim.
