**Re:** FESHM 5034 – Pressure Testing

---

This chapter has been updated as detailed below and sent for lab wide review:

FESHM 5034 – Pressure Testing

- Inserted required safety precaution in 7.1.c based on ASME PCC-2 pneumatic stored energy and safe distance calculations
- Updated definitions and responsibilities
- Added requirements for preliminary leak checking
- Modified requirements for determination of system pressure when leak detection is allowed

All comments received during the review period have been addressed by Subject Matter Experts and the updated chapter is ready for approval and release.

The chapter has been sent to you and Lisa Vega electronically. If a paper copy is required, you may either print one out or contact Lisa and she will provide one to you. After Directorate approval, please return this approval page to Kristy Gibson at MS119 for posting.

**Recommended for Approval:**
