**Re:** FESHM 5035 – Mechanical Refrigeration Systems

---

FESHM 5035 has been updated as follows:

- Five-year review of chapter 5035. Release Chapter 5035 using new FESHM template. Significant changes to the scope intended to streamline the documentation requirement for commercially produced packaged refrigeration systems where the manufactures do not explicitly indicate compliance with ASHRAE 15

The chapter has gone through the labwide review process, all comments have been addressed, and it is ready for your review and approval.

The chapter has been sent to you and Lisa Vega electronically. If a paper copy is required, you may either print it out or contact Lisa and she will provide it to you.

Please return this signature page to Kristy Gibson at MS 119 after Directorate approval.
