

Memorandum

June 5, 2012

To: Mr. Michael J. Weis

From: Nancy Grossman *mm ben NLG*

Subject: Updated WSS FESHM Chapter 5040 – Fermilab Electrical Safety Program

FESHM Chapter 5040, which is part of our Work Smart Set, has been updated as follows:

1. Clarified definitions of multiple outlet strips and multi-outlet assemblies.
2. Added: "RPTs may be fastened to benches or racks so long as they can be removed without the use of tools." as advised by UL.
3. Added photos of Multiple Outlet Strips and Multi Outlet Assemblies.

This chapter went out for lab-wide review, however, there were no comments. Members of the Fermilab Site Office are on the review distribution list, so any comments provided by them have also been addressed. The chapter is going for Directorate approval and the members of your staff who are on the review distribution list will receive an email notification when the final version has been posted.
