Subject: Updated WSS FESHM Chapter 5042 – AC Electrical Power Distribution Safety

FESHM Chapter 5042, which is part of our Work Smart Set has been updated as follows:

In Requirements section 3b, first bullet, the following was added:

“The D/S/C Electrical Coordinator shall be consulted for situations in which there is any doubt as to the configuration of the circuit. If uncertainty exists regarding the hazard/risk category, use the simplified guidance tables or consult D/S/C Electrical Coordinator or SSO.”

Also added electrical equipment labeling conventions to Technical Appendix.

This chapter went out for review and all comments have been addressed. Members of the Fermilab Site Office are on the review distribution list, so any comments provided by them have also been addressed. The chapter has going for Directorate approval and the members of your staff who are on the review distribution list will receive an email notification when the final version has been posted.
