

## Memorandum

November 19, 2010

**To:** Bruce Chrisman  
**From:** Nancy Grossman *mm*  
**Subject:** Revised FESHM Chapter 5042 – AC Electrical Power Distribution Safety

FESHM Chapter 5042 – AC Electrical Power Distribution Safety has been updated. Revisions include:

1. Added “skilled” to the definition of competent person.
2. Changed personnel protective equipment to personal protective equipment.
3. Changed Division/Section to Division/Section/Center
4. Changed “on or near exposed energized conductors” to “within the limited approach boundary of energized conductors” in the text defining Energized Work.
5. Corrected two grammatical errors.
6. Deleted: “The Permit preparer and approver are generally not the same individual. For situations where the approver is not fully knowledgeable in the particular System and/or associated hazards, the preparer may approve the Permit if so knowledgeable and authorized.”

This chapter went out for Lab-wide review and all issues were addressed. After final approval, please return this approval page to Jody Federwitz at MS119 for posting on the web.
