

Memorandum

November 1, 2010

To: Bruce Chrisman

From: Nancy Grossman 

Subject: Revised FESHM Chapter 7010 – ES&H Program Construction

FESHM Chapter 7010 – ES&H Program Construction has been revised as follows:

- Removed the term Fixed Price and made the chapter inclusive to all construction at Fermilab.
- Provided procedures for construction oversight of work accomplished on a time and material basis; thereby, omitted the requirement of FESHM Chapter 7011.
- Incorporated Task Manager description and responsibilities.
- In general, Task Manager and Construction Coordinator could be inner changeable term, except in specific requirements. Typically, these exemptions include projects administrated by FESS/Engineering which uses the terms Construction Coordinator and Construction Manager.
- Added Center to Division/Section references.
- Added an Appendix, Exhibit A, for construction. This eliminates the confusion of employees using the 7020 “service subcontracts”, non-construction, Exhibit A for construction activities.

This chapter went out for Lab wide review and all issues were addressed. After final approval, please return this approval page to Jody Federwitz at MS119 for posting on the web.
