

## Memorandum

December 14, 2015

**To:** File

**From:** Martha Michels *mm*

**Subject:** Updated FESHM Chapter 7030 – Excavation

FESHM Chapter 7030 – Excavation has been updated.

Changes:

- Changed high gas service from 100 psi to 2 psig.
- Damage to a gas line as a result of construction is considered reportable regardless of pressure.
- Added duration time for an excavation process.

This chapter was updated and reviewed by Subject Matter Experts. It did not go out for lab-wide review and does not require Directorate approval.
