

## Memorandum

December 16, 2013

**To:** File

**From:** Martha Michels *mm*

**Subject:** Updated FESHM Chapters 8050 – Domestic Water Protection

As a response to a recommendation from a domestic water assessment, the author has inserted two small clauses into section 4.6 of this FESHM chapter. The language of these clauses simply strengthens an existing requirement.

This chapter did not go out for lab-wide review and does not require Directorate approval.
