Re: FRCM Chapters, Updated and Posted

The following five FRCM chapters have been updated as follows:

FRCM Chapter 6: Radiological Training and Qualification

- Reformulated in light of Fermilab-wide ESH&Q consolidation and reorganization
- Modified title to more accurately express the scope.
- Change discussion of specific course content relegating the details of the content to the Radiological Control Organization consistent with requirements of other FRCM Chapters.
- Removed material duplicative of or in potential conflict with FESHM Chapter 2070.
- Editorial corrections as needed.

FRCM Chapter 7: Radiological Records

- Reformulated in light of Fermilab-wide ESH&Q consolidation and reorganization
- Removed technologically obsolete information and material duplicative of or in potential conflict with FESHM Chapter 2070.
- Editorial corrections as needed.

FRCM Chapter 9: Special Circumstances

- Reformulated in light of Fermilab-wide ESH&Q consolidation and reorganization.
- Editorial corrections as needed.

FRCM Chapter 10: Radiation Safety Interlock Systems

- Reformulated in light of Fermilab-wide ESH&Q consolidation and reorganization.
- Modified Article 1004.4 to permit a four month grace period for completion of interlock tests.
- Editorial corrections as needed.

FRCM Chapter 11: Environmental Radiation Monitoring and Control

- Reformulated in light of Fermilab-wide ESH&Q consolidation and reorganization
- Editorial corrections made as needed.

All five chapters went out for lab-wide review and all comments were addressed. After Directorate approval, please return this approval page to Jody Federwitz at MS119 for posting on the web.
